*"Being a VIP Chica means you strive to love yourself unconditionally. You understand self love is vital to a healthy and happy life. You know your worth and hold yourself accountable to show up for yourself and your tribe. Reflecting and intention setting is a daily practice because you know it's necessary for growth. You walk in your truth with faith and empathy for yourself and others. You also use gratitude and creativity as valuable tools to bring peace and joy into your life. You believe in the power of your thoughts and use them to manifest your best life. Living in peace and harmony with yourself and the world around you is a top priority. Being a VIP Chica means you are one magical goddess"*
